Not only they are found in thousands but also they seem to be more accustomed to the vehicles, and for this you can be closer to these gigantic animals. It is not only the elephants rather a varied numbers of animals such as to Masai giraffes, various gazelles, antelopes, buffaloes, lions, leopards, baboons and more than 500 types of birds make this the one stop solution for both the bird and the animal lovers. After the game drive you will leave the park in the late afternoon and drive to the lodge for your overnight stay.

DAY 3: TARANGIRE – SERENGETI NATIONAL PARK

Distance: 205 km

Leaving the highlands behind, we descend into the heart of wild Africa – the Serengeti National Park – with its endless plains, rolling into the distance as far as the eye can see. We head to the central park area, known as the Seronera area, one of the richest wildlife habitats in the park, featuring the Seronera River, which provides a valuable water source to this area and therefore attracts wildlife well representative of most of the Serengeti's species. We arrive in time for lunch and enjoy an afternoon game drive in the Serengeti national park. After your tour around the park, you will be transferred to your lodge where you will be spending the night.

DAY 4: SERENGETI NATIONAL PARK

Following breakfast, you will spend the whole day on a game drive in the Serengeti National Park and have lunch at a picnic spot en-route. Depending upon the time of year, you might even have the chance to witness the great migration with hundred thousands of wildebeests, zebras and Thompson gazelles. During the small rainy season in October and November, you will typically see these herds moving from the Kenyan Masai Mara through the northwest of the Serengeti to the plains in the south. After the great rainy season in April, May and June, the herds slowly travel back through the western and north-western part of the Serengeti. With fluctuations in rainfall, this timetable can of course change, resulting in the animals migrating during different times and routes. Your guide will try his outmost to find the animals and will make sure that you can see them from the best spot in the national park. Naturally, the migration also attracts predators and with luck you might see a kill in action. You will spend your night at the same lodge

- Overnight at Embalakai Tented Camp
- Meals: Breakfast, Lunch & Dinner Included

DAY 5: SERENGETI NATIONAL PARK – NGORONGORO CONSERVATION AREA

Here in the Seronera region you will often see wildebeests and zebras in close proximity of lions and other predators such as leopards and cheetahs. After a picnic lunch you will continue your journey towards the Ngorongoro conservation for overnight.
